

## MESSAGE

We first opened our door in 1954 as a wholesaler of rubber products for resource development and industry use.

Since then, we could steadily grow our business with the flexibility to adapt to the economic trend timely.

Our philosophy “Spirit of Resilience” which lives every one of us, could help us overcome several economic crises and recoil back into the shape to grow even further like “Weed”

We are now handling more than 30 thousand items not only as a Specialist of rubber and plastic products for various industries but also covering the products for construction, civil works, agriculture, plumbing and traffic safety.

We could achieve the record high annual turnover for the term 2022-2023 with the amount of 47 billion Yen which is 106 percent organic growth from the term 2021-2022. And we could also close our annual audit with the strongest balance sheet.

We are committed to keep challenging create new future with our administrative policy “Organization which has potential and physical strength to cope with the ever-changing environment” “Contributing to develop a better social welfare and local community” and keeping the values that our predecessors created which are: “Bonding with employees, Teamwork” “To live and step forward together with our business partners” “Caring the neighborhood” “Quick delivery” and “Social contribution” in our heart.

Going forward, we keep trying to make our partners and neighborhood to be “Fan” of Shibata and to be chosen as such.
